

RYAN STOCK

Senior Program & Innovation Leader

St. Petersburg, FL | 858.414.8819 | ryan@communityplaytools.com | linkedin.com/in/ryan-stock-bb955555 | communityplaytools.com

PROFESSIONAL SUMMARY

PMP-certified senior program and innovation leader with 11+ years aligning cross-functional teams, redesigning delivery systems, and moving ideas from exploration through evidence to launch. Brings enterprise-scale PlayStation commerce leadership, confident facilitation, civic coalition experience, and founder-mode product delivery.

CORE STRENGTHS

Program & portfolio leadership | Release Train Engineering (SAFe) | Operating cadence & change | Cross-functional facilitation | Product discovery & prototyping | Payments & ecommerce | External partner delivery | Public speaking & workshops | Civic and stakeholder leadership

PROFESSIONAL EXPERIENCE

Founder & Principal Consultant | Community Play Tools | Aug 2025 - Present

St. Petersburg, FL | Civic technology, participation systems, and live products

- Produced St. Pete Detective Club, a paid six-location field mystery. Sold 20 seats, ran crews of 3 to 6 across a 2.5-mile route, and owned concept, software, physical production, venues, ticketing, promotion, and live hosting.
- Designed, built, and deployed the custom React/TypeScript and Supabase platform, including shared crew state, progressive evidence unlocks, and an interactive endgame, then ran it under live player load.
- Designed and shipped Signal Fire, a Rails and Expo place-based event product; designed a six-format Williams Park engagement suite and a reusable perception-baseline methodology.

Senior Program Manager | Sony Interactive Entertainment, PlayStation Network Commerce | Dec 2017 - Jul 2025

San Diego, CA (remote from 2020) | Global ecommerce and payments platform serving 110M+ monthly active users

RELEASE TRAIN ENGINEER, COMMERCE AGILE RELEASE TRAIN

- Served as facilitator and servant leader for 6+ Agile teams across regions, currencies, payment systems, and regulatory domains; led PI Planning, ART Sync, System Demos, Inspect & Adapt, risk, and dependency management.
- Replaced quarterly SAFe planning with a custom monthly cadence and led pandemic-era remote-first change; pioneered "remote tables," later adopted as organizational standard practice.
- Led the Rally-to-Jira migration and restructured the product feature funnel with Product Management, improving prioritization and work-in-progress transparency.

PRODUCER & INNOVATION LEAD, PLAYSTATION DIRECT

- Produced Engineering Excellence hackathons for 80 to 240 participants across 6+ engineering teams, generating 30+ prototypes per event; one production adoption reduced cloud infrastructure costs 40%.
- Partnered with IDEO on AR, VR, and tactile low-screen concepts and used focus-group variant testing to determine which prototypes advanced.

COMMERCE PROGRAM MANAGER, PAYMENTS, TAX & FRAUD

- Led the PlayStation Direct PS5 preorder and prerelease checkout flow behind 4.5 million units sold in the launch quarter, coordinating engineering, product, finance, legal, and external partners.
- Delivered multi-region payment, wallet, and tax programs and served as primary delivery liaison with PayPal, Worldpay, Klarna, Chase, and Adyen, owning timelines, SOWs, and service obligations where applicable.

Program Manager | Omnitrac (formerly Qualcomm) | Jun 2014 - Jan 2018

Dallas, TX | Enterprise fleet-management technology

- Directed a next-generation fleet-management SaaS platform from concept to general availability, coordinating hardware, software, QA, procurement, sales, and legal to deliver the flagship app-enabling product on time and within budget.
- Led the Waterfall-to-Agile transition as Scrum Master, removing legacy process redundancies and improving release-cycle efficiency.

COMMUNITY & CIVIC LEADERSHIP

Board Member; Former President & Vice President | Beautiful PB | Feb 2023 - Present

San Diego, CA | President May 2024 - Jan 2026; Vice President 2023 - 2024

- Led a 12-member volunteer board, created a three-pillar structure across Mobility, Arts, and Greening, built succession planning, and scaled the annual operating budget from under \$1,000 to \$40,000.
- Secured a \$30,000 County of San Diego grant, then owned vendor selection and private-landowner siting to deploy three continuous automated counters, leading the 2023-2025 modernization of PB Counts from annual counting toward year-round monitoring.
- Built public data visualizations and added near-miss conflict data to the citizen-science program, translating raw sensor output into evidence for a human-safety policy conversation.
- Converted major-grant credibility into a \$450,000 capital campaign for PB Arts Center restoration and served as primary spokesperson across city, county, nonprofit, and media stakeholders.
- Ran six workshops that moved contested PB Pathways Phase 3 to unanimous Planning Group recommendation and the top Parking Board approval result despite organized opposition.

Board Member & Streets Chair | Pacific Beach Community Planning Group | 2024 - 2025

San Diego, CA | City-recognized planning advisory group

- Chaired the Streets & Sidewalks Subcommittee and presented a Garnet Avenue pedestrianization vision that ranked among the top three projects at the community capital-improvement fair.

SELECTED PRODUCT & INNOVATION EVIDENCE

- PlayStation innovation programs: structured experimentation, focus-group variant testing, 30+ prototypes per hackathon, and a clear path from exploration to production evidence.
- St. Pete Detective Club: paid, live, end-to-end product ownership across software, narrative, physical production, partners, promotion, and operations.
- Signal Fire: designed, built, and deployed place-based participation product; later deprioritized after evaluating the business model against available time and resources.
- Community Merit: designed, not shipped, a civic participation system based on check-ins, badges, and steward progression.

LEADERSHIP APPROACH

- Align the real constraints: make decisions, risks, and dependencies visible enough for cross-functional teams to act without relying on private context.
- Prototype for evidence: use the lightest credible test, workshop, or live pilot that can replace abstract disagreement with observable behavior.
- Deliver through change: protect the outcome, retune the operating plan as conditions move, and remain accountable for what reaches the customer or community.

SPEAKING & FACILITATION

Facilitated enterprise planning across 6+ Agile teams, produced innovation events for 80 to 240 participants, led six contested public workshops, represented a nonprofit before civic boards and media, and hosted a paid live field experience.

EDUCATION, CERTIFICATION & RECOGNITION

B.Sc., Biology & Bioengineering, San Diego State University, 2014 | Project Management Professional (PMP), Project Management Institute, 2017 (PMI #2052114)

Select coursework: Creating & Sustaining Innovative Culture (University of Queensland), Game Theory (Yale), Cryptocurrency Engineering (MIT OpenCourseWare)

Media: San Diego Union-Tribune, Times of San Diego, Beach & Bay Press | Eagle Scout | U.S. National Sprint Kayak Team (Under-23 and Pan American Team)

TOOLS & DELIVERY PRACTICE

Jira, Rally, Figma, React, TypeScript, React Native (Expo), Ruby on Rails, Supabase, Netlify. Accountable, AI-accelerated delivery: Ryan directs the work, reviews outputs, integrates systems, and retains accountability for what ships.
